DETAILED ACTION

Priority

Acknowledgment is made of applicant's claim for foreign priority under 35 U.S.C. 119(a)-(d). The certified copy has been filed in parent Application No. 09/658,664, filed on 9/8/2000. **Information Disclosure Statement**

The information disclosure statement (IDS) submitted on 10/29/03 has been considered.

Additional Prior Art Cited

Fisli et al and Inagaki each discloses a multi-beam scanning apparatus.

Allowable Subject Matter

Claims 14, 16-21, 37-38 and 40 are allowed.

The following is an examiner's statement of reasons for allowance: the cited prior art fails to teach or suggest (1) a multi-beam scanning optical system having the structure satisfying the condition specified in claim 14, and (2) a multi-beam scanning optical system having the incidence optical means, deflecting means, scanning optical means, and synchronism-detecting optical means as defined in claim 40; "wherein a dot shift per scan line on the surface to be scanned, which occurs because of a defocus amount $M2$ in a main scanning section of the beams guided to said synchronism detector and in view from a photoreceptive surface of said synchronism detector, is not more than half of resolution in a sub-scanning direction" (claim 40, last paragraph). Claims 16-21 and 37-38 are dependent claims and thus allowable at least for the same reason.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
